About This Game

The world's speediest homage/roast to JRPGs! Can you save the world in 30 seconds?

Get a quest, find those in need, fight through dungeons, earn cash, get cool loot and level up until YOU>EVIL. Don't have enough time? Pay the Goddess to reset the clock and try again! Over 100 mini-JRPGs for you to test your might with! Available outside Japan for the first time ever exclusively on Steam.

Key Features:

- A robust single player mode that features persistent leveling and FIVE separate eras of the Half Minute Hero saga.
- Four-player multiplayer with lobby support so you can see which of your friends is the TRUE hero.
- Time Attack and Infinite Battle Modes with Steam leaderboards!
- A custom map editor (with mouse support) so you can create your own maps and quests. Find, download, edit, and share via Steam Workshop.
- An art gallery and music player you can unlock as you progress through the game.
- More fun and charm than should be allowed in a game!
