This article takes a critical look on the development of Tamilnadu and its leading scientists of all times. Leaders of Tamilnadu are very famous people in the world, not only they contributed the scientific knowledge but they also contributed to the human civilization. Ramasamy Pushkar of Ramasamiyar is one such great personality, his contributions are more than just his scientific contributions. He is one of the men of that era. I am not going to mention any further in this article. Tamilnadu is a land of great leaders and celebrities who ruled or administrated the country effectively and also by protecting its national interest. Tamilnadu has produced the finest and greatest scientists like Periyar E. V. Ramasami. E.V. Ramasami – (1879–1920) To know the contributions of this great man, let's see about the contribution of his life. E. V. Ramasami was born in 1879 in a Tamilnadu village called Chenkal. He is one of the prominent personalities in the history of Tamilnadu. He was interested to science at an early age. He was also interested to the religious activities. He was very hard working in his school life. When he was a child he got the nickname “Ramayanam” and also he was fond of reading. At an early age he got interested to studies in a Government run Tamilnadu university and he gained the second place in his class in the whole Tamilnadu. He wrote a thesis in Physics on Cosmic Rays. E.V.Ramasami did his master's degree in Physics, Chemistry and Mathematics. In 1907 he was enrolled in University of Cambridge, England for further studies in Physical and Mathematical sciences. He was a student of Prof. W.R.S. Rutherford and he gained the title of the Mathematician of Cambridge. 82157476af
